

Keeping London working:

support for business and jobs

Keeping London working

The London Development Agency (LDA) is committed to ensuring that London has a thriving and prosperous business sector.

The changing economic circumstances make the challenge of starting, sustaining or growing your business harder. By focusing on growth, skills and jobs the LDA is determined to find more enterprising ways to support you and your business and counteract the fallout of the economic downturn.

If the business you work for runs into difficulties, or you are looking for a career change, the LDA can also help.

The LDA, together with its partners, is working to deliver comprehensive support for all London businesses.
